

Skate and Wheels Park Delivery Model

(Draft)

Draft Delivery Model

- Partnership between WASP, PTC, Maverick plus NSC as the Landowner being a silent partner
 - Similar model to Clevedon skatepark project
- Investigate PTC becoming the leaseholder for the land and thus being the applicant for planning permission
- Partnership may potentially unlock additional grant funding
- Create SLA between WASP and PTC
 - Will enable seamless transfer of maintenance responsibility to PTC post construction
- PTC will assist with project management and driving the planning application and lease process
