

PORTISHEAD TOWN COUNCIL

Business Continuity Plan & Policy

Purpose

The purpose of this plan is to prepare the Council's business in the event of extended service outages caused by factors beyond the Council's control and to restore services to the widest extent possible in a minimum time frame. This Plan has been developed to complement the overall risk arrangements, help maintain critical services during and after any major disruption and promote recovery.

The Business Continuity Plan is intended to provide an overall framework for managing the repercussions of a serious incident which identifies the resource requirements, list of contact names and addresses, and actions that need to be considered and taken, in the event of a serious disruption to the business activities undertaken by the Council.

Outcome

The outcome of this plan is to ensure that the business is able to maintain a good level of service.

Plan objectives

- Serves as a guide for those implementing the Business Continuity Plan
- Assists in avoiding confusion experienced during a crisis by documenting, testing and reviewing recovery procedures.
- References and points to the location of critical data.
- Provides procedures and resources needed to assist in recovery.
- Ensure Councillors are kept up to date should the plan be activated
- To minimize the social, political, legal and financial consequences

Structure

The Council must identify and appoint a team which will convene in the event of a disaster and will decide whether to invoke the necessary recovery plans. The team will include all or some of the following:

- The Clerk
- The Chair of the council
- The Chair of all the committees
- The Deputy Clerk, Responsible Financial Officer, Assistant Clerk and Media & Communications Officer

The team priorities will be:

- Staff safety and welfare
- Customer/resident safety
- Recovery of essential services
- Legal compliance

- Minimisation of financial loss

Documentation

This Business Continuity Plan will be kept as an electronic and hard copy by the Clerk and the Chairman of the Council. Copies of the plan will be distributed to all staff and Councillors.

Definitions of Incidents

Three levels of incident have been defined, the most serious being a Level 3 incident: a major incident.

Level 1 Incident: Local Incident:

Defined as a local incident that is not an emergency and does not cause serious physical threat to people or property. Results are likely to be limited disruption to services.

Level 2 Incident: Minor Incident:

Defined as an incident that could pose an actual threat to people or property but does not seriously affect the overall functioning of Folk Hall or the other halls. This might include the isolation or evacuation with the assistance of the Emergency Services.

Level 3 Incident: Major Incident:

Defined as an incident causing significant disruption to hall operations. It may affect the entire building(s), and staff, with the potential to escalate and involve external Emergency Services who would probably take operational control of the incident which would necessitate the invocation of the Business Continuity Action Plan.

Staff Welfare

It must be recognised that an incident that results in the enacting of this plan may also cause additional pressures for staff. Staff members need to be given clear direction about the priorities of the business. Managers must ensure that they monitor staff more closely to ensure that their welfare is maintained.

Staff should be aware of what their role is when a major incident occurs. Clear and concise communication with staff is pivotal to having an organised response. Staff must be made aware of what communication methods are going to be used so they can find out the latest information if they are going to be working from a different location than normal.

Managers who suspect that staff members have suffered undue stress or even trauma from the business disruption must consider aiding those staff who have been affected.

Communication

Employees – the Clerk will communicate with staff all updates and news regarding any emergency incident.

Councillors – the Clerk will notify the Chairman of the Council of any updates and news regarding an emergency incident followed by communication to all Councillors.

Public - communications with the public will be via the Councils website, social media, local news outlets and notice boards.

All communication with the press will be dealt with as per the Councils Media Policy.

Equipment

All staff have a work laptop or other IT equipment at home to enable them to work away from the office in an emergency. Phone numbers are shared with all members of staff. Staff will be reimbursed for any out of pocket expenses incurred (with the approval of the Clerk).

Data Protection

When working away from home, as a result of an unexpected office closure, all data on work laptops must be protected in accordance with Portishead Town Council policies and working practises must be in line with General Data Protection Regulations. All connections by a work laptop to the internet, when away from the workplace, must be made using a secure password protected internet VPN connection.

Maintenance and Review of Plan

Any changes in personnel which affect the plan should be addressed immediately.

The plan should also be checked and reviewed as follows:

- When there has been an incident which necessitates the utilisation of the plan, an incident report should be prepared and an assessment of the plans performance should be carried out;
- When there is a significant change in the way that the Town Council is run because of a change in legislation etc. the effects should be evaluated with respect to the plan.
